UKRAINIAN MATHEMATICAL JOURNAL
Volume 24, Numbers 1-6, 1972
(A translation of Ukrainskii Matematicheskii Zhurnal)

Volume 24, Number 1 January-February, 1972

	Engl.	Russ.
On the Application of Generalized Faber Polynomials to the Approximation of Cauchy-Type Integrals and Functions of Classes A^r in Domains with a Smooth and a Piecewise-Smooth Boundary – V. K. Dzyadyk	1	3
The Stability of Systems of Differential Equations of Neutral Type – A. F. Misnik	14	20
Averaging of Integro-Differential and Integral Equations – Yu. A. Mitropol'skii and A. N. Filatov	22	30
The Second Bogolyubov Theorem on the Averaging Method for Differential Equations with Lagging Argument – Yu. A. Mitropol'skii and V. I. Fodchuk	38	49
Approximation of Continuous (Analytic Interior) Functions in Domains with a Smooth Boundary – R. V. Polyakov	45	57
Application of Topological Methods to Equations with Monotonic Operators – I. V. Skrypnik	54	69
BRIEF COMMUNICATIONS		
Asymptotic Distribution of the Sojourn Time of the Simplest Random Walk on the Positive Semi-Axis – R. V. Boiko	63	80
On the Pithiness of Bounds in Converse Theorems on the Approximation of Functions on Regular Compacta of the Complex Plane – V. I. Gorbaichuk	66	83
Hyperbolic Equations with Operator Coefficients and Ultraparabolic Systems – Yu. L. Daletskii and E. A. Fadeeva	73	92
On the Approximation in the Mean of Functions of the Classes $H[\omega]_L$ by De La Vallee Poussin Sums – A. G. Demchenko	76	95
On Families of Nonparallel Regge Trajectories – V. I. Kolomitsev	83	104
On the Lower Indicator of Integral Functions of Zero Genus with Positive Zeros – A. A. Kondratyuk and A. N. Fridman	86	106
Inverse Nonstationary Scattering Problem for the Dirac Equation – L. P. Nizhnik	89	110
Generalized Power Sums – V. S. Reshetnikov	93	114
On a Method of Investigating Solutions of a Maxwell System – N. T. Stel'mashuk	94	115
On N-Compactness and Measureability Properties – D. V. Chudnovskii	98	118
An Inequality for Entire Functions – M. N. Sheremets	101	121
Best Approximation of Some Functions – I. A. Ezrokhi	105	125
Asymptotic Fields without Ultraviolet Cutoff in Two-Dimensional Field Theory Models – Ya. M. Yakymiv	109	130
NEWS		
On the 150-th Anniversary of the Birth of P. L. Chebyshev	114	137

Volume 24, Number 2 March-April, 1972

The Inverse Problem of Approximating Functions on a Boundary for Compacta of Positive Capacity – V. I. Gorbaichuk and P. M. Tamrazov	119	147

	Engl.	Russ.
Stability of Periodic Solutions of Systems with Distributed Parameters and Retardation – V. A. Dombrovskii	130	161
Representation of Solutions of Equations of Neutral Type – V. B. Kolmanovskii	138	171
Quasi-Periodic Oscillations in Linear Systems – Yu. A. Mitropol'skii and A. M. Samoilenko	144	179
Carleman-Type Boundary-Value Problem in the Class $L_p(C)$ – Fan Tang Da	157	194
Asymptotical Solution of a System of Linear Differential Equations with Partial Derivatives in the Case of Multiple Elementary Divisors – N. I. Shkil' and V. K. Grigorenko	165	204
BRIEF COMMUNICATIONS		
Markov Processes in a Hilbert Space – V. G. Bondarenko	177	218
On a Property of the Functions of an L-Basis – I. F. Grigorchuk	179	220
On the Summation of Integrals by the Bernstein–Rogosinski Method – L. V. Idel's	184	225
On One Method of Proving Limit Theorems for Certain Functionals of Semi-Markov Processes – V. S. Korolyuk and A. F. Turbin	191	234
Rvachev's Formula for a Domain with Corner Points – O. N. Litvin	197	240
Sufficient Conditions of Stability of the Solutions of a Linear Homogeneous System of Differential Equations with Variable Coefficients – G. A. Los'	203	246
Bounds on the Zeros of a Certain Determinant Whose Elements are Bessel Functions of the First and Second Kinds – V. L. Makarov	206	249
An Iteration Formula for Lyapunov-Function Construction – A. A. Martynyuk	211	255
An Investigation of the Stability in a Critical Case of Certain Null Roots of a System of Differential Equations of Neutral Type – A. F. Misnik	217	260
A Generalization of a Theorem of Livingston – R. V. Nikolaeva and L. G. Repnina	224	268
On Inversion Formulas of the Fundamental Integral Representation of y^k-Analytic Functions in Polar Coordinates – N. A. Pakhareva and M. M. Belova	228	273
Bipositive Projection Operators in a Partially Ordered Vector Space – V. S. Ten	232	277
Discrete Topological Spaces – D. V. Chudnovskii	235	279
On Infinite Periodic M-Groups – V. I. Yurchenko	238	282

Volume 24, Number 3 May-June, 1972

	Engl.	Russ.
Classes of Boundary-Value Problems for the Sturm–Liouville Equation with an Operator Potential – V. I. Gorbachuk and M. L. Gorbachuk	241	291
Coefficient Indicators of Stability of Lyapunov Exponents of Two-Dimensional Linear Systems – N. A. Izobov	251	306
On the Factorization of a Matrix Polynomial – P. S. Kazimirskii	259	316
On the Approximation of Continuous Functions by Algebraic Polynomials – N. P. Korneichuk and A. I. Polovina	269	328
Generalized Eigenvector Expansion and Integral Representation of Invariants of Positive-Definite Kernels – L. M. Korsunskii	279	341
Analog of the Cauchy Kernel and the Riemann Boundary Problem in a Three-Sheeted Surface of Genus Two – V. E. Kruglov	287	352
Projection Method for Equations with Nonpotential Operators – V. G. Litvinov	297	365
Dynamical Systems with Constant Sign Functions – A. M. Samoilenko	304	374
Identifying Certain Types of Parts of a Graph and Computing Their Number – N. P. Khomenko and L. D. Golovko	313	385
BRIEF COMMUNICATIONS		
On Solving the Problem of Encounter Avoidance – I. V. Beiko and Z. M. Shportyuk	322	397
On the Scattering Problem in Axiomatic Field Theory – Yu. M. Berezanskii	325	400
Asymptotic Integration of Certain Weakly Nonlinear Systems – V. L. Golets	331	407
On the Structure of the Principal Ideals in Some Banach Algebras of Analytic Functions – N. M. Osadchii	338	415

	Engl.	Russ.
The Truncation of a Countable System of Partial Differential Equations – G. P. Khoma and V. T. Yatsyuk	342	418
Uniqueness Conditions for the Solution of a Cauchy Problem for the Case of Special Systems of Equations with Variable Coefficients – N. N. Chaus	345	421
LETTERS TO THE EDITOR	350	427

Volume 24, Number 4 July-August, 1972

	Engl.	Russ.
Positive Definite Functions of Infinitely Many Variables in a Layer – Yu. M. Berezanskii and I. M. Gali	351	435
A Theorem on Uniform Imbedding – G. L. Garg	373	465
Asymptotic Equations for the Supremums of Approximations of Functions of Hölder's Classes by Rogosinski Polynomials – V. K. Dzyadyk and A. I. Stepanets	381	476
Limiting Value of Lower Indicator and Lower Bound for Entire Functions with Positive Zeros – A. A. Kondratyuk and A. N. Fridman	390	488
Stabilization of the Solutions of Boundary Value Problems in Noncylindrical Domains – Ya. S. Kushitskii	396	495
Some Questions Connected with Equations with Transformed Argument – V. P. Skripnik	404	505
Oscillation of Solutions of High Order Linear Differential Delay Equations – V. N. Shevelo and N. V. Varekh	410	513
Solution of Encounter-Evasion Problem in a Linear Differential Game – Z. M. Shportyuk	417	521
BRIEF COMMUNICATIONS		
On the Question of Dichotomy for the Solutions of Systems of Linear Differential Equations – B. I. Golets and V. L. Kulik	423	528
A Theorem of Lyapunov Type Concerning the Stability of a Multidimensional System – A. A. Martynyuk	427	532
Periodic Solutions of Discrete Second Order Difference Equations – Yu. A. Mitropol'skii and N. A. Mikhailovskaya	432	537
Investigation of a Two-Dimensional Linear Differential System – S. G. Oleinik	436	541
Solutions of Certain Elliptic Equations That Are Positive in the Neighborhood of Isolated Singular Points – T. G. Pletneva and S. D. Éidel'man	442	548
The Spectrum of a Certain Pseudodifferential Operator – M. A. Rybak	448	555
On the Strong Solvability of the Generalized Tricomi Problem – N. G. Sorokina	451	558
On the Complete Expansion of the Measure of Approximation for the Fejér Means – Eberhard L. Stark	454	562
CHRONICLES		
Dissertations Defended before the Scientific Council of the Institute of Mathematics, Academy of Sciences, USSR, in 1971-1972	458	566

Volume 24, Number 5 September-October, 1972

	Engl.	Russ.
The (C_λ)-Property of Abel Summability of Double Series and Theorems of Tauberian Type – M. F. Burlyai	465	597
On Measures in a Hilbert Space which are Equivalent Relative to Groups of Linear Transformations – G. P. Butsan	476	593
On Limiting Values of an Integral of Cauchy Type for Functions of Zygmund Classes – V. K. Dzyadyk and I. A. Shevchuk	483	601
Infinite Groups with Specified Properties of Subgroups – D. I. Zaitsev, M. I. Kargapolov, and V. S. Charin	497	519

	Engl.	Russ.
A Method of Constructing Lyapunov's Function for Weakly Nonautonomous Linear Systems of Differential Equations – O. B. Lykova and B. M. Bogatyrev	510	634
The Application of the Method of Polynomial Operators to the Approximation of Solutions of Differential Equations of a Special Type – S. A. Spasokukotskaya	517	642
On a Problem of A. N. Kolmogorov for Functions of Two Variables – A. I. Stepanets	526	653
The Inverse Scattering Problem for a System of Dirac Equations on the Whole Line – Pham Loi Vu	537	666
Existence of Quasiperiodic Solutions of Systems of Second Order Differential Equations – V. T. Yatsyuk	545	675
BRIEF COMMUNICATIONS		
On the Solution of a Class of Deviation Problems – I. V. Beiko and Z. M. Shportyuk	551	683
On a Boundary-Value Problem for a System of Elliptic Differential Equations – L. D. Gordinskii	555	687
On a Class of Contracting Operators Related to the Divisibility of Analytic Functions – B. I. Korenblyum and V. M. Faivyshevskii	559	692
On a Bound for Spline Approximations – A. S. Loginov	562	695
Some Special Functions and Functional Correspondences – M. L. Makhishvari	566	700
On a Question about the Structure of the Spectrum of the Schroedinger Operator – M. A. Rybak		
Some Extremal Problems on Classes of Summable Functions – L. G. Khomutenko	574	710

Volume 24, Number 6 November-December, 1972

The Fiftieth Anniversary of the Formation of the Union of Soviet Socialist Republics	579	723
The Spectrum of Self-Adjoint Extensions of the Minimal Operator Generated by a Sturm–Liouville Equation with Operator Potential – V. I. Gorbachuk and M. L. Gorbachuk	582	726
Riemann Boundary-Value Problem for Analytic Matrix Functions – V. N. Gordienko	589	735
Stability of Motion of a Nonautonomous Gyrostat – É. I. Druzhinin	597	744
On the Noether Theory of Integrofunctional Equations with Shifts – V. G. Kravchenko	604	752
On a Boundary Problem for the Laplace Equation in the Disk – Nguen Kuok Zan	613	763
Tests for Nonisomorphic Steiner Triple Systems – A. Ya. Petrenyuk	620	772
Fourier Series Approximation of Functions which Satisfy Lipschitz Conditions – A. I. Stepanets	627	781
Semigroups of Multivalued Transformations that Define Topological Spaces – A. Z. Khamishon	641	800
Certain Properties of Solutions of Differential Equations with Lag – V. N. Shevelo and N. V. Varekh	647	807
BRIEF COMMUNICATIONS		
Linear Operators Acting in a Generalized Hölder Space H_φ – M. Z. Berkolaiko and Ya. B. Rutitskii	653	814
Conditions for a System of Analytic Functions to Form a Basis – V. I. Gorgula and N. I. Nagnibida	658	820
Uniform Approximations of Functions and Some Properties of Fractional Polynomials – V. D. Koromyslichenko	661	823
Integral Representation of Analytic Functions – V. K. Kochetkov	663	825
Solution of an Inhomogeneous Boundary-Value Problem with Continuous–Discrete Parameters for Discrete Perturbations – K. Ya. Kukhta	666	829
The Wave Equation of Heat Conduction – M. P. Lenyuk	669	832
The Construction of Solutions for a Second-Order Lag Equation Describing Oscillatory Processes Having a Large Resistive Force in the Resonance Case – Lieh Suan K'ang	675	838

	Engl./Russ.	
Approximate Solution of the Cauchy Problem by Means of Polynomial Operators – S. A. Spasokukotskaya	679	843
On a Self-Adjoint Operator Associated with Elliptic Problems with a Spectral Parameter in the Boundary Conditions – L. I. Tyutyunnik	682	846
Integral Estimates for the Derivatives of Solutions of Homogeneous Elliptic Equations with Reduced Requirements on the Smoothness of the Boundary of the Domain – A. S. Fokht.	687	852
